

CARAHELL

Stonehelm.co.uk Malt Index

Grown in:

Germany

Description:

This malt is mainly used to accentuate the fullness of flavour in special German festival beers, although it is unsurpassed as a flavour booster in low alcohol lagers. Produced in the same way as Carapils but kilned off slightly hotter. Greatly increases head formation and retention.

Max Percentage of Mash:

40% (Higher percentage in low alcohol beers)

EBC:

20 - 30
