

PALE CRYSTAL MALT

Stonehelm.co.uk Malt Index

Grown in:

UK

Description:

This light version of the British classic is ideal for increasing body and fullness while preserving a pale colour. Unsurpassed in bitter beers and pale ales for adding subtle sweetness to balance the customary high hop rate. Crystal malt is produced in much the same manner as Carapils except that kilning is prolonged until the desired colour is reached.

Max Percentage of Mash:

20%

EBC:

80 - 140
